

Innovative &  
Cost-Effective

# For Every Room in the Home

TotalSlide® Pro is a new continuous-slide hang rod hardware system that easily attaches to an existing wire shelf\*. It transforms a traditional wire shelf into an area with extra hang space. Maximize unused corner space with the TotalSlide® Pro Corner Rounder and define where hang space starts and ends with the TotalSlide® Pro Hang Stop. This patent-pending, cost-effective system is easy to cut, install and can reduce waste while achieving a clean aesthetic.

\*ClosetMaid All-Purpose (SuperSlide®) or Heavy Duty shelving.

## Program Highlights

- Increases available hang space
- Enables new designs, in any room
- Compatible with All-Purpose (SuperSlide®) and Heavy Duty shelving (all depths)
- Works with existing TotalSlide® hardware
- Corner Rounder allows continuous slide from a 16 in. to a 12 in. shelf

## TotalSlide® Pro System Components

Part Name SKU#	Product Feature	Benefit	Ctn. Qty.	Cube	Lbs/Ctn.
<b>TotalSlide® Pro Hang Stop</b> <b>7920-00</b> 	Caps the hang rod. Secures to front shelf lip.	Designate hang space only where it's needed.  Prevents clothing from sliding off of the end of a hang rod assembly.	100	0.1	1.625
<b>TotalSlide® Pro Corner Rounder</b> <b>7949-00</b> 	Durable, epoxy-coated solid metal tube.  Maximizes use of neglected corner spaces.	Creates a continuous slide solution around corners, without the need for a corner shelf.	12	0.1	1.25
<b>12ft. Hang Rod Assembly</b> <b>7924-00</b> 	Durable hook profile from transformed steel rod.  Features special coating which allows hangers to slide smoothly.	Creates a continuous slide hang rod solution for All-Purpose/SuperSlide® and Heavy Duty wire shelving.	6	1.9	39
